

## THE ROLE OF ENGLISH IN OUR REPUBLIC!

**Sadriddinova Mashhura O'ktam qizi**

*Navoi region: specialty - foreign language and literature. Future English teacher.*

**Abstract:** *During the years of independence, Uzbekistan remained a country with a low level of knowledge of the English language. That is why new projects and reforms are being implemented in the country. Having achieved results in this field, Uzbekistan will finally be able to move to a new stage of development. As a result of the joint efforts of the Ministry of Public Education and educational centers, the situation in the field of learning English will change dramatically, and the country will rise to a new level, opportunities will increase, and this in turn will increase the number of applicants. helps to improve and strengthen their English language skills.*

**Keywords:** *English language, level of language knowledge, our Republic, foreign language of Uzbekistan, literature.*

The Ministry of Public Education is doing its best to improve the quality of education in schools. In this regard, many projects have been implemented with international organizations in recent years. For example, two years ago, the Minister of Public Education of Uzbekistan, Sherzod Shermatov, and the director of the British Council's representative office in Uzbekistan, Rachel Eiland, signed a letter of agreement on the action plan of the project aimed at further improving the teaching of the English language. According to this project, teachers from different countries exchange experiences, new methods and strategies. In 2020, Minister of Public Education Sherzod Shermatov and EF EducationFirst President Karl-Johann Westring signed a memorandum of understanding. In particular, the parties plan to establish cooperation and conduct several trainings in the field of English language teaching to assess the knowledge of students, teachers and anyone else. Within the framework of the document, EF EducationFirst expressed its willingness to make a direct investment of \$59.27 million to support educational programs for the development of the English language in Uzbekistan.

Undoubtedly, educational centers play an equally important role in the development of the English language in the country. Unlike schools, such institutions mainly specialize in preparing for international examination systems such as (IELTS, CEFR, TOEFL, CAE) and admission to national universities.

Due to the huge changes in the structure of education by the government, the number of people who want to enter universities is increasing every year, and studying in study centers makes this process easier. About 6,000 students study at the Innovative Centre, one of the country's leading learning centers, with 96% achieving their goals.

As a result of the joint efforts of the Ministry of Public Education and educational centers, the situation in the field of learning English will change dramatically, and the country will rise to a new level, opportunities will increase, and this in turn will increase the number of applicants. helps to improve and strengthen their English language skills.

In today's rapidly developing age, science and technology are growing rapidly. Progress is being made in every field. In particular, great changes and significant achievements are being made in science. Delivering each subject to students using new innovative pedagogical technologies is one of the main requirements of today's education. Systematic measures are being implemented in our country to develop teaching of foreign languages as a priority direction of education policy, to fundamentally improve the quality of education in this direction, to attract qualified pedagogues to the field, and to increase the interest of the population in learning foreign languages. In the decision of the President of the Republic of Uzbekistan on May 19, 2021 "On measures to bring the activities of popularization of foreign language learning to a qualitatively new level" and on January 19, 2022 "On improving the study of foreign languages" The decision of the Cabinet of Ministers No. 34 "On additional measures" also set a number of tasks for improving the quality of teaching foreign languages. Requirements to have a foreign language certificate were also introduced in the justice system. The purpose of this is to ensure the competitiveness of legal personnel in the international arena through the further development of the national legal system, as well as to fill it with honest, conscientious and knowledgeable personnel who will become mature specialists in their field. After all, as the head of our state, Shavkat Mirziyoyev, said, "The time has come to establish a new system for teaching foreign languages in our country, which will be a solid foundation for the future. Since we have set ourselves the goal of building a competitive country, from now on, graduates of schools, lyceums, colleges and universities must have a perfect knowledge of at least 2 foreign languages. This strict requirement should become the main criterion for the activity of the head of every educational institution."

### **Summary**

In conclusion, I can say that English is one of the most developed foreign languages today. As a result of the joint efforts of the Ministry of Public Education and educational centers, the situation in the field of learning English will change dramatically, and the country will rise to a new level, opportunities will increase, and this in turn will increase the number of applicants. helps to improve and strengthen their English language skills.
