Also, English language is widely used in tourism, medicine, technologies and similar fields in Uzbekistan.*

**Keywords:** *common language, international communications, international business, academia, medicine, technology, tourism, law, "unique toolkit", "door of the world."*

Today, the English language is considered popular and useful not only in our country, but also in the world. Keywords: sustainability, economic growth, global lingua franca, bilateral trade, tourism, medicine, technology, popular global English. Today, English is becoming the language of international communication not only in our country, but also in non-English-speaking countries of the world. It is no exaggeration to say that the English language has reached the level of a world language. learn the English language more deeply and make new investments in the future. English language plays an important role not only in education, but also in all aspects of society's life, especially in the development of the economy. English is not only a means of communication, but also a means of social and economic development, as well as employment opportunities. In addition, the English language is an important factor in domestic and foreign investments, export activities with English-speaking countries, development and internationalization of small and medium-sized enterprises, and scientific and technical development.

Introduction.

Today, a number of reforms aimed at development cannot be ignored. In particular: English in our country, ongoing rapid changes. Of course it is changes are primarily related to large financial projects allocated by our government, financial support was also provided by the British Consulate and the US Embassy in Uzbekistan In particular, the President's Decree No. PQ-5117 dated May 19, 2021 "2021 Decree

of the President of the Republic of Uzbekistan Let it lead to the promotion of learning foreign languages in the Republic of Uzbekistan has risen to a new level in terms of quality." The decision includes many reforms promoting not only English, but also other foreign languages among the population and coordinating the implementation of internationally recognized programs and textbooks for teaching these languages at all levels of education. It should be noted that not only Uzbekistan, but also the USA A number of other major European countries are interested in developing trade relations. The reason is that Uzbekistan has gained economic leadership in Central Asia

Research and methodology. English is the most preferred language for international trade and plays an important role its role in the development of trade between countries. In recent years, there are about 1.5 billion English speakers worldwide, which is one fifth of the world's population. Our life is largely dependent on English because it facilitates communication.

#### METHODOLOGY

Moreover, English is the only language that is often used for communication. This language is the only language most students are familiar with and it allows them to express themselves most effectively. English is also frequently used in literature and mass media for book publishing. English is spoken in the world's most economically and culturally influential countries, and over the centuries it has become the primary language not only for international relations, but also for international business, medicine, academia, technology, science, and law. It is clear that the importance of the English language in Uzbekistan is increasing day by day. Almost all multinational companies use English to arrange meetings with other foreign companies. In addition, most universities accept this language, and university students are taught this subject six or seven times a week. This is a fact all over the world; tourists use this language as a common language to communicate with other nationalities. It is worth noting that tourists who come to various ancient cities of Uzbekistan also communicate in English. According to the British Council, the spread of English provides unlimited access to science, information and communication technology (ICT), money, power, international communication and intercultural understanding, as well as entertainment and many other fields.

#### Discussion and results.

The economy of Uzbekistan, located in the center of Central Asia, bordering all the countries of the region and Afghanistan, is developing steadily and has a large consumer market and, of course, the opportunity to enter the markets of all neighboring countries. The Republic is a very promising investment partner with a cheap but highly qualified labor force and a rapidly developing infrastructure. That is why Tashkent and Washington attach priority to strengthening trade and economic exchange. Since 1993, the procedure for creating the most favorable conditions for trade relations has been introduced. The US-Central Asia Trade and Investment Framework Agreement (TIFA) signed in 2006 also serves to develop practical relations. In addition, several large US

companies are operating in Uzbekistan. including General Motors, Boeing, ExxonMobil, Coca-Cola and John Deere. In 2018, the official visit of the President of the Republic of Uzbekistan Shavkat Mirziyoyev at the invitation of the US President Donald Trump started a new historical stage in the relations between our countries. Mutual understanding on the expansion of bilateral trade relations, cooperation in higher education and scientific research, agriculture and energy, cooperation in the process of Uzbekistan becoming a member of the World Trade Organization, the Central Asian trade forum to be held in Tashkent in 2018, transfer agreements were the practical results of cooperation. this is a visit. Shavkat Mirziyoyev and Donald Trump discussed the current state and prospects of Uzbekistan-US cooperation, exchanged views on current issues of international and regional importance. "The beginning of a new era of Uzbek-US cooperation" was adopted. The very name of this document indicates serious changes in the cooperation between our countries, the desire to strengthen mutually beneficial relations in various fields, and special attention is being paid to promising projects.

#### Summary

Nowadays, English has reached the level of a world language. Also, in Uzbekistan, teachers have additional bonuses if they have a certificate of knowledge of the English language. Proficiency in foreign languages, especially English, is very important to promote academic development in Uzbekistan, as it is of great importance in various fields. Today, the fields of medicine, technology and science require knowledge of a foreign language, especially English, due to the abundance of information available in these fields. Major projects and reforms aimed at the development of English and other foreign languages in our country will undoubtedly bear fruit in the coming years. It is also noteworthy that the business environment in our country, where systematic measures have recently been implemented to liberalize the monetary policy, simplify the taxation procedure, create additional comfort and benefits for investors, is attracting the attention of leading firms and companies of the USA.
